### Tech conferences speaking engagements:

<https://www.techtrainingpoint.com/speaking/>

- Microsoft Ignite : Singapore (High Availability on Azure)
- Microsoft Ignite : Mumbai (Azure Governance)
- Microsoft Ignite : Orlando (Florida, USA)
- North America MCT Summit : Seattle (Washington, USA)
- Microsoft App Innovation Circle : Mumbai (Azure Functions)

- SharePoint Saturday : Ahmedabad (Migration Workloads to Azure)
- Build Recap : Bangalore
- DevCon : Bangalore

## **Technical Expertise:**

- **Microsoft Technologies**
  - C#
  - .NET Framework with ASP.NET MVC, WCF, Web API
  - ASP.NET Core with Microservices
- **Microsoft Azure :**
  - PaaS & IaaS,
  - Architecting Azure Solutions,
  - Hybrid Cloud with Azure Stack
  - Azure Security
  - Azure DevOps
  - Microsoft Azure Bot Framework
  - Cognitive Services
  - Azure AI + ML Platform, CNTK, ML.NET with ML Studio
  - Integrating Custom libraries
  - Azure Analytics Service, Azure Stream Analysis
  - Microsoft Official Courses and Certification as well as Custom Tailored Courses
- **HTML, CSS, JavaScript Framework and Libraries**
  - HTML 5, CSS, Bootstrap
  - Angular JS and Angular 2/4/5/6/7/8
  - React JS with Redux, Advanced React with React Hooks
  - WebPack, JEST, Karma, Jasmine
  - Vue.js
  - jQuery
  - Transpilers : TypeScript, Babel
- **Dynamic Languages : Python (Numpy, SciPy, Panda, Flask, Django)**
- **Containerization**
  - Docker, Kubernetes, Azure Kubernetes Service

## **Microsoft Certification Details**

<b>Microsoft Certified Trainer</b>	<b>2014 - Present</b>
<b>Microsoft Certified Solution Expert</b>	<b>Cloud Platform and Infrastructure</b>
<b>Microsoft Certified Solution Developer</b>	<b>App Builder</b>
<b>Microsoft Certified Solution Associate</b>	<b>Cloud Platform</b>
<b>Microsoft Specialist</b>	<b>Developing Microsoft Azure Solutions</b>

## Microsoft Certification Drive:

Since 3 years, I am running **India Microsoft Certification Chapter [ IMCC ]** under which I conduct Microsoft Certification promotion as well Microsoft certification preparation drive. I visit various Software companies and train their employees on particular certification. We also try to reach youth in Computer Science and Information Technology field in Collages/Universities, Make them aware of Microsoft Certification, Benefits, Guide them on and explain them certification path and teach them technical concepts and solve technical queries regarding respective Exam. The main goal of IMCC Certification drive is make attendees certification ready and motivate them to clear Microsoft certification in their respected technology. The sessions I conduct under IMCC is more exam prep session which help participants to understand particular exam, exam concepts, topic weightages and key things to keep in mind while taking exam on particular topic such as Exam No : 70-532, Developing Microsoft Azure Solution, AZ 201, AZ 202, 70-486 etc.

### Appreciation from Microsoft :

- I am always thankful to Microsoft for giving me an opportunity for Microsoft Certification promotion in India and appreciating my efforts as my success story on Microsoft Learning portal. Link: <http://microsoft.com/en-us/learning/success-stories.aspx>

- Represented Microsoft Learning as an MCT Ambassador for Microsoft Ignite promoting Microsoft Certification and assisting participants to understand Microsoft Azure, ASP.NET Web Application Development with MVC and C# certification paths.

## **Project Portfolio**

### **a) Company Name: Indusa Infotech, Ahmedabad**

**Project: Consulted a team developing Transport Management System – Custom Application Development for a USA based client.**

#### **– Responsibilities:**

- Involved with the development team in understanding of project requirements and helped them to identify and finalize the same.
- Helped them to understand existing system limitations, integration details
- Discussed various strategies for project architecture, tools and technologies.
- Prepared project architecture.
  - Client Side: Angular 8,
  - Server Side:
    - ASP.NET Core 2.0 with Microservices with Docker and Kubernetes
    - Microsoft Azure
- Periodical Code Reviews
- Helped them to design development sprints and successful project build release

### **b) Company Name: Indusa Infotech, Ahmedabad**

**Project: Consulted a team developing responsive web application to help real estate investors (house flippers) manage their business.**

#### **– Role: Solution Architect**

#### **– Responsibilities:**

- Involved with the development team in understanding of project requirements and helped them to identify and finalize the same.
- Helped them to understand existing system limitations, integration details
- Discussed various strategies for project architecture, tools and technologies.
- Prepared project architecture.
  - Client Side: React JS + Material UI + Redux,
  - Server Side: ASP.NET Core 2.0 with Microservices hosted on Microsoft Azure cloud
- Periodical Code Reviews
- Helped them to design development sprints and successful project build release

### **c) Company Name: Aavid Technologies, Ahmedabad**

**Project:** Consulted the team developing staffing solutions provides contract employment opportunities for physical therapy, Occupational Therapy, Nurses and Social worker positions across state of Texas, USA.

– **Role:** Solution Architect

– **Responsibilities:**

- Involved with the development team in understanding of project requirements and helped them to identify and finalize the same.
- Helped them to understand existing system limitations, integration details
- Discussed various strategies for project architecture, tools and technologies.
- Prepared project architecture. Client Side: HTML5, ReactJS, CSS 3. Server Side: ASP.NET Core 2.0 with Microservices hosted on Microsoft Azure cloud
- Periodical Code Reviews
- Helped them to design development sprints and successful project build release

**d) Company Name:** QuantArt Market Solutions Pvt Ltd, Kolkata

**Project:** Provided Azure consultancy to their developers.

– **Role:** Project Consultant

– **Responsibilities:**

- Helped them to understand various Azure Offerings and select appropriate Azure Services.
- Guided them to establish Azure Security and Azure Hybrid connectivity architecture.
- Helped them to design Azure Infrastructure architectural diagrams
- Guided them to apply custom domains and SSL certificates to their cloud hosted web applications.
